

Albany-Schenectady-Troy 1997 8-Hour Ozone Non-Attainment Area Transportation/Air Quality Conformity Determination

DRAFT for Planning Committee Review March 27, 2026

**Capital Region Transportation Council
(formerly Capital District Transportation Committee)
2025-2030 Transportation Improvement Program and
2050 *In Motion* Metropolitan Transportation Plan**

**Adirondack/Glens Falls Transportation Council
2025-2030 Transportation Improvement Program and
2045 *Ahead* Metropolitan Transportation Plan**

**Capital Program of Transportation Projects
in Montgomery, Greene, and Schoharie Counties**

Prepared by:

NYS DOT Environmental Science Bureau, Capital Region Transportation Council, and Adirondack Glen Falls Transportation Council in association with NYS DOT Regions 1, 2, and 9

Executive Summary

The Capital Region Transportation Council (Transportation Council) has drafted an amended metropolitan transportation plan, In Motion: The Plan to 2050 (In Motion). Adoption of In Motion requires that the Transportation Council, in cooperation with the Adirondack/Glens Falls Transportation Council (A/GFTC) and the New York State Department of Transportation (NYSDOT) Regions 1, 2 and 9, adopt a new transportation air quality conformity determination for the seven-county Albany-Schenectady-Troy, NY ozone nonattainment area.

This report documents that the involved agencies have completed the transportation conformity process and confirms that the Transportation Council and A/GFTC Transportation Improvement Programs (TIPs) and long-range transportation plans (Plans), and projects in the non-urbanized portion of the Albany-Schenectady-Troy area meet all applicable transportation conformity requirements.

Clean Air Act (CAA) section 176(c) (42 U.S.C. 7506(c)) requires that federally funded or approved highway and transit activities are consistent with ("conform to") the purpose of the State Implementation Plan (SIP). Conformity to the purpose of the SIP means that transportation activities will not cause or contribute to new air quality violations, worsen existing violations, or delay timely attainment of the relevant National Ambient Air Quality Standards (NAAQS) or any interim milestones.

The United States Environmental Protection Agency's (EPA) transportation conformity rules, 40 CFR Parts 51.390 and 93, establish the criteria and procedures for determining whether TIPs, Plans and federally supported highway and transit projects conform to the SIP. Chapter 6 of the New York Codes Rules and Regulations (NYCRR) Subpart 240 (Part 240) is the SIP for transportation conformity consultation in New York State. Part 240 was approved by the USEPA, effective September 29, 2014. Part 240-2 identifies the agencies, procedures, and allocation of responsibilities for consultation and is consistent with consultation requirements in 40 CFR Part 93.105.

The consultation procedures were followed during the conformity determination process and are documented in the Section titled "Consultation" below. In summary, the Transportation Council, A/GFTC, and NYSDOT staff discussed the content of this air quality conformity determination with the New York State Interagency Consultation Group (ICG) for air quality conformity during the amendment of the In Motion plan.

On February 16, 2018, the United States Court of Appeals for the District of Columbia Circuit in *South Coast Air Quality Mgmt. District v. EPA* ("South Coast II," 882 F.3d 1138) held that transportation conformity determinations must be made in areas that were either nonattainment or maintenance for the 1997 ozone NAAQS and attainment for the 2008 ozone NAAQS when the 1997 ozone NAAQS was revoked. The Albany-Schenectady-Troy, NY area was nonattainment at the time of the 1997 ozone NAAQS revocation on April 6, 2015, and was also designated attainment for the 2008 ozone NAAQS on May 21, 2012. Therefore, per the *South Coast II* decision, this conformity determination is being made for the 1997 ozone NAAQS.

This conformity determination was completed consistent with CAA requirements, associated regulations at 40 CFR Parts 51.390 and 93, 6 NYCRR Part 240 and the *South Coast II* decision, as

per the USEPA's *Transportation Conformity Guidance for the South Coast II Court Decision* issued on November 29, 2018.

Transportation Conformity Overview

The concept of transportation conformity was introduced in the Clean Air Act (CAA) of 1977, which included a provision to ensure that transportation investments conform to the State Implementation Plan (SIP) for meeting the Federal air quality standards. Conformity requirements were made substantially more rigorous in the CAA Amendments of 1990. The transportation conformity regulations that detail the criteria and procedures to successfully comply with the CAA conformity provisions were first issued in November 1993 and have been amended several times. The regulations establish the criteria and procedures for transportation agencies to demonstrate that air pollutant emissions from metropolitan transportation plans, transportation improvement programs and projects are consistent with ("conform to") the State's air quality goals in the SIP.

Transportation conformity is required under CAA Section 176(c) to ensure that Federally-supported transportation activities are consistent with ("conform to") the purpose of a State's SIP. Transportation conformity establishes the framework for improving air quality to protect public health and the environment. Conformity to the purpose of the SIP means Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) funding and approvals are given to highway and transit activities that will not cause new air quality violations, worsen existing air quality violations, or delay timely attainment of the relevant air quality standard, or any interim milestone.

Albany-Schenectady-Troy 1997 Ozone Nonattainment Area

On June 15, 2004, the EPA designated the Albany-Schenectady-Troy, NY area consisting of Saratoga, Schenectady, Albany, Rensselaer, Montgomery, Greene, and Schoharie Counties nonattainment for the 1997 8-hour ozone standard (0.08 parts per million). This designation was based on the results of ambient air monitoring data collected by the New York State Department of Environmental Conservation from calendar years 2001-2003. These data established an 8-hour ozone "design value" of 0.087 ppm for the area. The current design value for the area, based on 2022-2024 data, is 0.063 ppm.

On July 20, 2012, the EPA designated the Albany-Schenectady-Troy, NY attainment for the 2008 ozone standard (0.075 ppm). The area was designated attainment for the 2015 ozone standard (0.070ppm) on January 16, 2018.

Transportation Conformity Requirements

On November 29, 2018, EPA issued *Transportation Conformity Guidance for the South Coast II Court Decision*¹ (EPA-420-B-18-050, November 2018) that addresses how transportation conformity determinations can be made in areas that were nonattainment or maintenance for the 1997 ozone NAAQS when the 1997 ozone NAAQS was revoked but were designated attainment for the 2008 ozone NAAQS.

The transportation conformity regulation at 40 CFR 93.109 sets forth the criteria and procedures for determining conformity. The conformity criteria for long-range metropolitan transportation plans (MTPs) and TIPs include latest planning assumptions (93.110), latest emissions model (93.111), consultation (93.112), transportation control measures (93.113(b) and (c)), and emissions budget and/or interim emissions (93.118 and/or 93.119).

In orphan areas that have one or more Metropolitan Planning Organizations (MPOs), transportation conformity for transportation plans and TIPs for the 1997 ozone NAAQS can be demonstrated without a regional emissions analysis pursuant to 40 CFR 93.109(c). This provision states that the regional emissions analysis requirement applies one year after the effective date of EPA's nonattainment designation for a NAAQS and until the effective date of revocation of such NAAQS for an area. The 1997 ozone NAAQS revocation was effective on April 6, 2015, and the *South Coast II* decision upheld the revocation. As no regional emission analysis is required for this conformity determination, there is no requirement to use the latest emissions model, or budget or interim emissions tests.

Therefore, transportation conformity for the 1997 ozone NAAQS for the A/GFTC and Transportation Council TIPs and Plans, and the Capital Program of Transportation Projects in Greene, Montgomery and Schoharie Counties can be demonstrated by showing the remaining requirements in Table 1 in 40 CFR 93.109 have been met. These requirements, which are laid out in Section 2.4 of EPA's guidance and addressed below, are:

- Latest planning assumptions (93.110)
- Consultation (93.112)
- Transportation Control Measures (93.113)
- Fiscal constraint (93.108)

Latest Planning Assumptions

The use of latest planning assumptions in 40 CFR 93.110 of the conformity rule generally apply to regional emissions analyses. In the 1997 ozone NAAQS areas, the use of latest planning assumptions requirement applies to assumptions about transportation control measures (TCMs) in an approved SIP. There are no TCMs in any SIP in the Albany-Schenectady-Troy, NY area. Thus, the latest planning assumption requirement is not applicable for this conformity determination.

¹ Available from <https://www.epa.gov/sites/production/files/2018-11/documents/420b18050.pdf>

Consultation

The consultation requirements in 40 CFR 93.112 and 6 NYCRR Part 240 were addressed both for interagency consultation and public consultation.

Per 6 NYCRR Part 240, interagency consultation was conducted with the NYSDEC, NYSDOT, FHWA, FTA and USEPA. Representatives of these agencies comprise the Interagency Consultation Group (ICG) for air quality conformity in New York State.

On March 26, 2026, the ICG concurred with the classification of Capital Program of Transportation Projects in Greene County (NYSDOT Region 1), Montgomery County (NYSDOT Region 2) and Schoharie County (NYSDOT Region 9). There are no projects within the A/GFTC portion of Saratoga County. The ICG concurred with the classification of projects in the Transportation Council's draft amendment of the In Motion plan on February 19, 2026. The Reimagine I-787 project is in the preliminary engineering phase, and is non-exempt with the ICG.

All other projects on the TIPs, MTPs and Capital Programs are exempt for the purposes of transportation conformity as per 40 CFR Part 93, 6 NYCRR Part 240 and the interagency consultation process. A list of projects and their exempt codes is attached to the conformity statement.

Consistent with planning rule requirements in 23 CFR Part 450, the public will be provided an opportunity to review and comment on the draft conformity determination and supporting documentation for at least thirty days beginning in April 2026.

The draft conformity documentation will be posted to the A/GFTC, Transportation Council and NYSDOT web sites. Evidence of public notice will be attached to this final conformity documentation.

Comments pending for inclusion in the conformity determination.

Timely Implementation of TCMs

There are no transportation control measures (TCMs) in the SIP for the Albany-Schenectady-Troy, NY 1997 ozone nonattainment area.

Fiscal Constraint

Transportation conformity requirements in 40 CFR 93.108 state that transportation plans and TIPs must be fiscally constrained consistent with DOT's metropolitan planning regulations at 23 CFR Part 450. The Transportation Council's In Motion 2050 MTP, the A/GFTC 2045 Ahead MTP and the 2025-2030 Transportation Council and A/GFTC TIPs are fiscally constrained, as demonstrated in the Transportation Council's In Motion 2050 Financial Plan and the Transportation Council 2025-2030 TIP. The A/GFTC fiscal constraint demonstration is included in Appendix A of the A/GFTC TIP document.

Conclusion

The conformity determination process completed for the 2025-2030 A/GFTC and CRTIC TIPs, the A/GFTC 2045 Ahead MTP, the proposed Transportation Council In Motion 2050 MTP Amendment, and the Capital Program of Transportation Projects in Greene, Montgomery and Schoharie Counties demonstrates that these planning documents meet the Clean Air Act and Transportation Conformity rule requirements for the 1997 ozone NAAQS. The signed resolutions adopting this conformity determination will be included in the final conformity documentation.

Schoharie County Capital Program of Transportation Projects
NYSOT Region 9

FFY Let	Region	PIN	Air Quality Code	New or Carryover	Project Title	Current Letting	Letting Organization	Project Description	FEDERAL	LOCAL	STATE
2028	9	908502	A2	Carryover	RT 146 OVER KINGS CREEK, INVERT PAVING, TOWN OF WRIGHT, SCHOHARIE COUNTY	10/28/2027	NYSOT	This project paves the inverts of three corrugated steel pipes on BIN 1079800, Rt. 146 over Kings Creek in the town of Wright, Schoharie County.	\$480,000		\$120,000
2027	9	908605	A2	Carryover	RT 443 SLOPE STABILIZATION, SCHOHARIE COUNTY	4/8/2027	NYSOT	This project stabilizes multiple slopes along the embankment of Rt. 443 (from MP 0.1 to 0.2 and MP 3.5 to 3.6) in order to preserve the integrity of the roadway. Town of Schoharie, Schoharie County.	\$2,052,000		\$513,000
2025	9	935852	A10	Carryover	188 RESURFACING AND JOINT REPAIRS, OTSEGO COUNTY LINE TO EXIT 20, SCHOHARIE COUNTY	3/27/2025	NYSOT	This project resurfaces and repairs failed transverse joints and potholes along 188 from the Otsego County line to just east of Exit 20 in the town and village of Richmondville, Schoharie County (MP 0.00 to 5.49). Additional work includes the installation of new guide railing, MIARDs and pavement markings.	\$11,939,600		\$1,326,600
2025	9	975478	A19	New	CAVERNS RD (CR9) OVER COBLESKILL CREEK, BNY 2018	4/15/2025	LOCAL	This reconstruction project replaces the deficient structure (BIN 3355030) that carries Caverns Rd (CR 9) over Cobleskill Creek. Town of Cobleskill, Schoharie County. This structure will be replaced in-kind, with no additional capacity or travel lanes.	\$2,135,501	\$1,758,900	
2025	9	975521	A19	Carryover	HUNTERS LAND RD OVER LITTLE SCHOHARIE CRK, BRIDGE REPLACEMENT, BNY 2021	7/30/2026	LOCAL	This project replaces the existing structure (BIN 3354700) carrying Huntersland Rd over Little Schoharie Creek to eliminate structural deficiencies and maintain link in local highway system. Town of Middleburgh, Schoharie County. Project Awarded through Bridge New York 2021. Total Award = \$3,171,480.	\$2,363,866	\$152,133	
2025	9	975522	A19	Carryover	CR 40/ENGLVILLE RD OVER WEST CRK, BRIDGE REPLACEMENT, BNY 2021	4/8/2026	LOCAL	The project replaces the existing structure (BIN 3355200) carrying Engleville Rd (CR 40) over West Creek Bridge to eliminate structural deficiencies and maintain link in local highway system. Town of Sharon, Schoharie County. Project Awarded through Bridge New York 2021. Total Award = \$2,331,965.	\$1,621,650	\$85,350	
2025	9	975523	A19	New	CR 41/ECKER HOLLOW ROAD OVER ECKER HOLLOW CREEK (BRIDGENY 2021)	10/15/2024	LOCAL	This project replaces the deteriorated CR 41/Ecker Hollow Rd over Ecker Hollow Creek culvert on its existing alignment to restore its condition, improve hydraulics, and maintain/restore a link in the local highway system. Town of Middleburgh, Schoharie County. BridgenY 2021. This structure will be replaced in-kind, with no additional capacity or travel lanes.			\$997,600
2026	9	975555	A19	Carryover	LOWE ROAD OVER WEST CREEK BRIDGE REPLACEMENT, TOWN OF SEWARD, SCHOHARIE COUNTY, BNY 2022	5/11/2026	LOCAL	This project replaces the bridge that carries Lowe Road over West Creek (BIN 2228670) in the Town of Seward, Schoharie County, to maintain long-term integrity of the crossing using cost-effective techniques to minimize the life cycle cost of maintenance and repair. This project also addresses geometric deficiencies, improves the hydraulic capacity and improves traffic flow. Project Awarded through Bridge New York 2022. Total Award = \$3,153,565. Project does not alter capacity/no additional travel lanes.	\$2,297,100	\$120,900	
2026	9	975556	A19	Carryover	MICKLE HOLLOW RD OVER TRIB COBLESKILL CREEK CULVERT REPLACEMENT, TOWN OF COBLESKILL, SCHOHARIE COUN	3/16/2026	LOCAL	The project preserves a section of Mickle Hollow Road with a complete culvert replacement. The proposed culvert will have a longer span to increase the hydraulic opening. The barrel length will be lengthened to accommodate wider lanes and shoulders. Concrete flared wingwalls on both the upstream and downstream ends will be constructed along with stone fill installed to help prevent scouring of the banks. Guiderail will be installed over the proposed crossing and the approaches to make the roadway safer for vehicles. Town of Cobleskill, Schoharie County			\$995,000
2026	9	975557	A19	Carryover	HEATHEN CREEK RD OVER HOUSE CREEK CULVERT REPLACEMENT, TOWN OF FULTON, SCHOHARIE COUNTY, BNY 2022	4/30/2026	LOCAL	The project preserves this section of Heathen Creek Road by replacing the culvert that carries Heathen Creek Road over House Creek (MP 0.00 to 0.025). The new structure consists of a precast concrete three-sided unit with a span of approximately 18 feet founded on cast in place concrete footings on rock, plus in-line wingwalls on both ends and new bridge rail/guide rail. To provide for better intersection alignment, the new structure will be constructed adjacent to the existing structure. During construction, the existing structure will be reduced to a single lane and temporary signals installed to control intersection traffic. Town of Fulton, Schoharie County.	\$1,024,600	\$315,400	
2026	9	975592	A19	Carryover	CR 64/MEADE RD OVER CHARLOTTE CK, BRIDGE REPLACEMENT, TOWN OF SUMMIT, SCHOHARIE COUNTY, BNY 2023	2/11/2028	LOCAL	This project replaces the deteriorated structure that carries CR 64 / Meade Rd. over Charlotte Ck (BIN 3355130) on a slightly improved alignment with minor approach work in the town of Summit, Schoharie County. Bridge NY 2023 Award = \$3,402,000.00. Project does not alter capacity/no additional travel lanes.	\$2,439,650	\$128,402	
2026	9	975593	A19	Carryover	CR 4/W FULTON RD CULVERT REPLACEMENT, TOWN OF RICHMONDVILLE, SCHOHARIE COUNTY, BNY 2023	4/9/2027	LOCAL	This project rehabilitates or replaces the culvert along CR 4 / W. Fulton Rd. in the town of Richmondville, Schoharie County in order to improve the hydraulic condition of the stream crossing. Bridge NY 2023 Award = \$1,480,000.00.			\$1,111,800
2027	9	980723	A10	Carryover	RTE 990V DEP BETTERMENT PAVEMENT REHABILITATION PROJECT	8/30/2027	NYSOT	This preventive maintenance project repairs culverts and restores 6.00 lane miles of Rt. 990V (MP 0.00 to 2.9) in the towns of Gilboa and Conesville in Schoharie County.		\$3,000,000	
2027	9	980755	A2	Carryover	SMALL CULVERT LINING FFY27	1/7/2027	NYSOT	This project will line or repair small culverts under deep fills primarily along Interstates or NY Rte. 17.	\$2,815,000		\$485,000
2025	9	980764	A19	Carryover	JOC - BRIDGE MAINTENANCE, OTSEGO AND SCHOHARIE COUNTIES, 2025-2026	1/23/2025	NYSOT	This project is utilized to repair bridges, including but not limited to bearings, joints, pedestals, decks, wearing surfaces and approach slabs in the counties of Otsego and Schoharie.			\$823,498
2026	9	980771	A19	Carryover	JOC - HIGHWAY/DRAINAGE COMBINED, DELAWARE AND SCHOHARIE COUNTIES - 2026-2027	2/5/2026	NYSOT	This Job Order Contract (JOC) for Highway and Drainage work is a preventive maintenance project to repair roadway elements including but not limited to pavement, guiderail, culverts, closed & open drainage systems and hazardous tree removals within the counties of Delaware and Schoharie Counties.			\$857,000
2026	9	980774	A19	Carryover	BRIDGE RAIL REPLACEMENT, REGIONWIDE, SFY 2025	1/22/2026	NYSOT	This project replaces deteriorated bridge railing tubes and transition rail on various bridges within Region 9. Any tuning fork transitions and wrap around clamps are also replaced.	\$1,089,490		\$272,373
2028	9	980775	A19	New	SCOUR PROJECT 2027	10/14/2027	NYSOT	This preservation project addresses stream deficiencies by placing heavy stone on both sides of the stream bank to prevent further stream bank erosion, re-establishing stream channel alignment, clearing debris clogging, removing gravel bar build-up, and placing of in stream stone structures for BINs 1018400, 1021380, 1030400, 1020760, 1078540, 1018730 in Broome, Chenango, Delaware and Schoharie counties.	\$1,200,000		\$300,000
2027	9	9ADA22	C2	Carryover	ADA ACCESSIBILITY PROJECT: REGION 9	2/25/2027	NYSOT	This project designs, removes and replaces or rehabilitates ramps and sidewalks in various Federal Aid Eligible locations throughout Chenango, Delaware, Otsego and Tioga Counties to bring them into compliance with current state and federal standards.	\$782,977		\$195,744

EXEMPT PROJECTS

Highway and transit projects of the types listed below are exempt from the requirement to determine conformity. Such projects may proceed toward implementation even in the absence of a conforming transportation plan and TIP. However, a particular action of the type listed below is not exempt if the MPO, in consultation with the ICG, concurs that it has regionally significant emissions impacts.

The following coded list of exempt projects is derived from “Table 2 - Exempt Projects” in 40 CFR Part 93.126 and 6 NYCRR Part 240.27.

A. Safety

- A1 Railroad/highway crossing
- A2 Projects that correct, improve, or eliminate a hazardous location or feature
- A3 Safer non-Federal-aid system roads
- A4 Shoulder improvements
- A5 Increasing sight distance
- A6 Highway Safety Improvement Program implementation
- A7 Traffic control devices and operating assistance other than signalization projects
(including *ITS maintenance and ITS operations for incident management / safety warnings*)
- A8 Railroad/highway crossing warning devices
- A9 Guiderails, median barriers, crash cushions
- A10 Pavement resurfacing and/or rehabilitation
- A11 Pavement marking
- A12 Emergency relief (23 U.S.C. 125)
- A13 Fencing
- A14 Skid treatments
- A15 Safety roadside rest areas
- A16 Adding medians
- A17 Truck climbing lanes outside the urbanized area
- A18 Lighting improvements
- A19 Widening narrow pavements or reconstructing bridges (no additional travel lanes)
- A20 Emergency truck pullovers

B. Mass Transit

- B1 Operating assistance to transit agencies (*or entities that provide transit service*)
- B2 Purchase of support vehicles
- B3 Rehabilitation of transit vehiclesⁱ
- B4 Purchase of office, shop, and operating equipment for existing facilities
- B5 Purchase of operating equipment for vehicles (ie: radios, fareboxes, lifts, etc.)
- B6 Construction or renovation of power, signal, and communications systems (*including new systems to inform passengers of transit line schedule + status*)
- B7 Construction of small passenger shelters and information kiosks
- B8 Reconstruction or renovation of transit buildings and structures (ie: rail or bus buildings, storage and maintenance facilities, stations, terminals, and ancillary structures)
- B9 Rehabilitation or reconstruction of track structures, track, and trackbed in existing rights-of-way
- B10 Purchase of new buses and rail cars to replace existing vehicles or for minor expansions (< 10%) of the fleet.ⁱ (*NOTE: NYS ICG recommends case-by-case consultation for all expansions, also see footnote “i” on next page*)
- B11 Construction of new bus or rail storage/maintenance facilities categorically excluded in 23 CFR Part 771

EXEMPT PROJECTS, cont.

C. Air Quality and Other

- C1 Continuation of ride-sharing and van-pooling promotion activities at current levels
- C2 Bicycle and pedestrian facilities
- C3 Planning and technical studies
- C4 Grants for training and research programs
- C5 Planning activities conducted pursuant to titles 23 and 49 U.S.C.
- C6 Federal-aid systems revisions
- C7 Engineering to assess social, economic, and environmental effects of the proposed action or alternatives to that action
- C8 Noise attenuation
- C9 Emergency or hardship advance land acquisitions (23 CFR 710.503)
- C10 Acquisition of scenic easements
- C11 Plantings, landscaping, etc.
- C12 Sign removal
- C13 Directional and informational signs (*including ITS maintenance and ITS operations projects*)
- C14 Transportation enhancement activities (except rehabilitation and operation of historic transportation buildings, structures, or facilities)
- C15 Repair of damage caused by natural disasters, civil unrest, or terrorist acts, except projects involving substantial functional, locational or capacity changes

Projects Exempt from Regional Emissions Analysis

40 CFR Part 93.127 includes "Table 3 - Projects Exempt from Regional Emissions Analysis," which is also presented in 6 NYCRR Part 240.28. Such projects are exempt from regional emissions analysis requirements, but require consideration of the local effects with respect to CO or PM₁₀ and PM_{2.5} concentrations to determine if a hot-spot analysis is required prior to making a project-level conformity determination. These projects may then proceed to the project development process, even in the absence of a conforming plan and TIP.

D. "Hot-Spot" Project-Level Conformity Analysis

- D1 Intersection channelization projects
- D2 Intersection signalization projects at individual intersections
- D3 Interchange reconfiguration projects
- D4 Changes in vertical and horizontal alignment
- D5 Truck size and weight inspection stations
- D6 Bus terminals and transfer points

ⁱ In PM₁₀ and PM_{2.5} nonattainment or maintenance areas, such projects are exempt only if they are in compliance with control measures in the applicable implementation plan.

Other miscellaneous codes:

- J1 Block of Funds, no projects OR likely non-exempt but no preferred/likely alternative*
- K1 Exempt / not regionally significant through interagency consultation and does not have a code in the list above.*
- K2: Project is subject to general conformity and is not subject to the regional emissions analysis requirements under transportation conformity*
